ELS Enterprise™

Unibar® ELS Enterprise™

Fast, reliable barcode and RFID label printing.

Unibar® ELS Enterprise™ brings fast, reliable barcode and RFID label printing to your mobile enterprise. The solution is part of the Unibar® Enterprise Labeling Software™ (ELS) product suite from Data Systems International (DSI).

DSI's Unibar ELS product suite makes it easy to design and print barcode labels wherever your operations require — on the shop floor, in the warehouse, or on the move.

Unibar ELS Enterprise is also the preferred barcode and RFID label printing solution for DSI's dcLINK® mobile data collection software.

High-Performance Printing Solution

Unibar ELS Enterprise adds support for advanced barcode functionality, RFID label printing, and optional XML capabilities to Unibar® ELS Standard™.

This high-performance, enterprise-wide label design and printing solution makes it easy to design, modify, and print barcode labels automatically as part of the work process, or on demand.

- **Enables advanced barcode and RFID smart label printing**
- **The preferred label printing solution for dcLINK**
- **Runs on UNIX, Linux, and Windows platforms**
- **Seamlessly interfaces with leading applications and databases**
- **Supports 1D and 2D barcodes, EPC, RFID, and UTF-8**
- **Cross-platform Java label design tools**
- **Easy-to-use graphical interface**
- **High-performance label print engine**
- **Supports a wide range of printers**

Optional XML Printing Capabilities

Optional functionality is available that enables Unibar ELS Enterprise to convert XML data streams from Oracle applications and other enterprise applications and databases for use in printing barcode and RFID labels.
