Unibar® ELS Standard™

Efficient, cost-effective, dynamic label printing for UNIX®, Linux®, and Windows® platforms.

Design and print barcode labels quickly and easily with Unibar® ELS Standard™, part of the Unibar® Enterprise Labeling Software™ (ELS) product suite from Data Systems International® (DSI).

DSI's Unibar ELS product suite makes it easy to design and print barcode labels wherever your operations require — on the shop floor, in the warehouse, or on the move.

Easy-To-Use Printing Solution

Unibar ELS Standard is a high-performance, enterprise-wide label design and printing solution that operates on multiple platforms, using data from leading enterprise applications and databases.

- **Runs on UNIX, Linux, and Windows platforms**
- **Seamlessly interfaces with leading applications and databases**
- **Supports 1D and 2D barcodes and UTF-8**
- **Cross-platform Java label design tools**
- **Easy-to-use graphical interface**
- **High-performance label print engine**
- **Supports a wide range of printers**

Design and Print Barcode Labels

Unibar ELS Standard's four powerful modules make it easy to design, modify, and print barcode labels automatically as part of the work process or on demand.

- **Label Designer**
  - ✓ Create and modify labels and label templates
  - ✓ Integrate 1D and 2D barcodes, data, text, boxes, lines, and other graphics
- **Label Data Dictionary Editor**
  - ✓ Define label data fields easily, such as part number, ship quantity, etc.
  - ✓ Use defined fields in multiple label templates as needed
- **Configuration Module**
  - ✓ Define data sources, printers, printer addresses, and other parameters
- **Label Formatter**
  - ✓ Provides data mapping and printing services
  - ✓ Print directly from a program or file
  - ✓ Process multiple label types at the same time
  - ✓ Initiate label printing as needed
